Using key words *college persistence* in Google Scholar renders myriad studies and articles that speak to gender, ethnicity, race, socioeconomic background, etc.

According to this [U.S. News & World Report](#), “In many cases, 1 in 3 first-year students or more won’t make it back for sophomore year.”

Common findings that lead to **college persistence** (the return of a student from first year to sophomore year) are relationships and academic preparation.

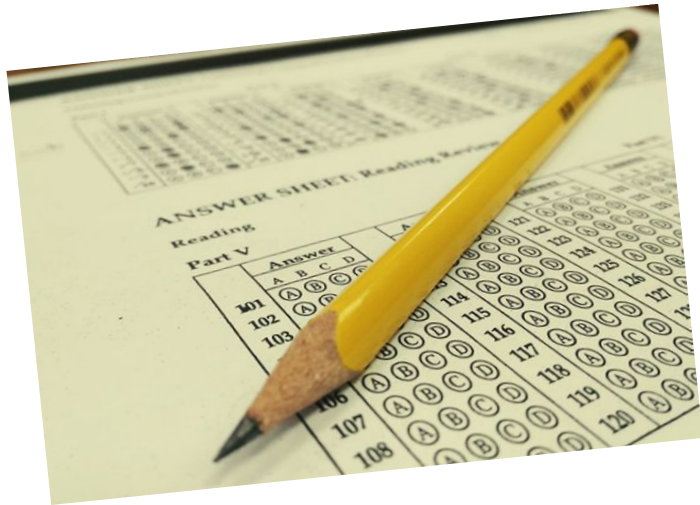

The Class of 2018 (the most recent data provided) realized a **92%** persistence rate.

Advanced Placement (2020)

[Spring 2020 exams](#) were 45-minute, web-based, generally free response (languages did include a speaking component).

Students and teachers found creative ways to connect virtually to review and to continue learning content in preparation for the exams.

Advanced Placement (2020) : By the numbers

- 16 course exams were taken in the Spring of 2020
 - 171 exams in total
- **11 courses** realized percentages of students earning a 3 or higher **equal to or greater than** the PA average.
 - 3 courses realized 100% of students earning a 3 or higher
 - 2-D Art and Design (2 students)
 - French Language/Culture (9 students)
 - US Government/Politics (1 student)

Note: Most post-secondary institutions treated the modified AP test exam credits as if it were a normal testing year. <https://www.compassprep.com/2020-ap-exam-policies/>
