

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

The Palisades School District utilizes not only local benchmark assessments, but also uses norm-referenced assessments (NWEA MAP) to monitor the learning and growth of our students. Additionally, performance on previous state assessments (PSSA), as well as PVAAS projected performance data, have traditionally been used to help provide a data-specific narrative for each student. Given the disruption to state testing due to COVID, current data being used to identify students for inclusion in after-school programming will primarily come from local benchmark assessments and NWEA MAP scores, year over year and fall to winter. These data points will assist school-based teams in identifying students to participate in these additional learning opportunities outside of normal school hours.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	45	Pre- and post-assessments will be given to students at the beginning of the program and at the end of the program, respectively, to determine impact of desired growth. Additionally, school-based teams will monitor academic progress in school. A primary focus will be reading/literacy, making use of an evidence-based program to support that work.

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

Foundations will be the core program used to support literacy instruction.Khan Academy will be the core program used to support math instruction.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
13	Internal	Teachers
8	Internal	Instructional Assistants

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Survey	End of program	The expected result is that students, staff, and families will find the program to meet the needs of the students and that there is a sense of efficacy of program.

6. How will the LEA engage families in the after-school program?

Families will be engaged at the onset by receiving an informational flyer, as well as an invitation for their student(s) to participate in the program. Communications home from the teacher will accompany the program. And, finally, families will be asked to respond to a survey to gather input on perceived success and constructive criticism for improvement.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$10,655.00

Allocation

\$10,655.00

Budget Over(Under) Allocation

\$0.00

Budget Overview

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$7,155.00	Meet the Standards after school program costs for faculty and staff
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	200 - Benefits	\$3,500.00	Meet the Standards after school program costs for faculty and staff
		\$10,655.00
