## President's Message:

Thank you for taking the time to peruse this first issue of The Jolly Roger! I am pleased to bring it to you as a member of the Palisades Community, parent of a Palisades students, and local business owner. PCF is moving into its future by exploring new avenues for supporting our three pillars: Wellness, Arts, and Education. As most readers know, PCF has contributed greatly to the community in the past through stadium lights, all-weather track, donations to local libraries, artists in residence, three annual scholarships to deserving students, grants awarded to organizations such as Palisades Community Chorus, and many more. As our society and community change so do we. A current issue in the national news, as well as in our own community, is mental health awareness and support. PCF is investigating ways we can partner with existing programs and create new programs to benefit our community in many areas of mental health such as anxiety, depression, substance abuse, drug and alcohol use and availability, violence, etc. The 2017 PAYS survey (available on the Palisades School District

website) demonstrates to us the nature and need of addressing these core issues in our community.
