

PYC OPEN HOUSE

PYC (Partnering with Youth and Community) is a 501(c) (3) nonprofit, non-affiliated community group based in Upper Bucks County PA that strives to give youth members the tools they need to develop into successful adults, bring together families, and benefit our local and global communities through service projects and activities.

YOU ARE INVITED!

We welcome new families to visit us to learn more about PYC, then stay for as long as you would like at our potluck picnic afterwards for an opportunity to meet and speak with members.

ABOUT US

WHO WE ARE – PYC (Partnering with Youth and Community) is a 501(c) (3) nonprofit, non-affiliated community group that strives to give our youth members the tools they need to develop into successful adults, bring together families, and benefit our local and global communities through service projects and activities.

COMMUNITY Sharing positive values, our PYC community works together to help nurture, guide, and teach our youth. We are a support network to each other. It is a place where ALL family members play a key role in PYC, and are essential to its success.

YOUTH LEADERSHIP Our youth leadership program is over 13 years strong. PYC's customized leadership program developed and led by Elizabeth Cruickshank, MA LPC, is constantly evolving to meet the specific needs of the members of our group. Older youth serve as mentors to help teach and guide younger members.

PERSONAL GROWTH PYC is a place where youth learn and practice communication, leadership and mentoring skills in a supportive environment.

CITIZENSHIP Community service opportunities bring our members together through projects during meetings, with hands-on activities within our local community and by traveling abroad to serve in the Dominican Republic and beyond.

STEWARDSHIP We care for all aspects of our community, including its natural resources. We proudly organize and sponsor a Sustainability Expo in our community.

MEETINGS Monthly meeting themes address topics that are relevant to our youth, delivered to three age-appropriate groups. Whole group communication and teamwork activities led at our meetings bring together members of all ages to work cooperatively to solve challenges. Our field trips and excursions are also great places for growth and fun.

SUMMER FAMILY CAMP The annual summer family camp at picturesque Camp Choconut pulls together everything we work on throughout the year for several days of personal growth, fun and friendship.

DIVERSITY PYC provides a positive, supportive and accepting atmosphere, welcoming members from all backgrounds and from various communities. PYC is where many people with a wide array of personal interests come together to support our youth.

PARENT SUPPORT PYC provides a supportive time and space for parents to discuss topics relevant to them while the youth are split out into their groups.

FAMILY-BASED APPROACH Family members pitch in to assist with different aspects of the program. This cooperative effort not only distributes the work fairly among many, but also shares the many gifts that the adult members can bring to the group.
